CE MATERIALS (PRETEST, POSTTEST, ETC.) CREATED BY:

Kelly Sinclair-McClintock, MA, LICDC-CS, MCAP

Kelly has spent the better part of her career working with a criminal population, often within the walls of the jail system, and oddly enough has loved every moment of it. Kelly says, "it's easy to enjoy being institutionalized-when you have the keys to the joint"! So true.

Since 2005, she has served as the CEO of Project Solutions, a social service organization that provides counseling services to a criminal population. Kelly has authored numerous professional training manuals and is a sought-after speaker/presenter.

- Certified Masters Addictions Professional Florida
- Find Your Strong Campaign findyourstrong.info
- Graduate Leadership Stark County, 18th Class
- Commendations Stark County Jail Treatment Program 2006, 2010
- Recipient Bliss Scholarship Akron University, 1991
- Internship Capitol Hill, 1991

COURSE DESCRIPTION:

*In addition to courses created by our writing team, we also use government publications for continuing education. While these courses are much more “textbooky” than our original works, we carefully choose publications that are information-dense and contain material that will be especially helpful to individuals seeking initial certification/licensure. After choosing the right publications, our writing team creates a user-friendly pretest/posttest and may attach additional insights to improve the learning experience. We have found that several organizations and government entities produce phenomenal publications that provide the knowledge (facts and figures) needed to pass state boards and keep skills sharp.

This course is a compilation of several publications produced by the Substance Abuse and Mental Health Services Administration (SAMHSA) and the National Institute on Drug Abuse (NIDA). This lengthy training thoroughly explores the process of detoxification, which includes discussion regarding assessment, treatment settings, and levels of care. These publications also outline the effects of drugs on the brain, body, and overall health. You will learn about detoxification services for withdrawal from specific substances and discuss the treatment of co-occurring medical and psychological conditions. This comprehensive course even touches on financial and administrative issues that are relevant for detoxification programs.

This course is applicable for professionals and practitioners of all levels. Course content applies to various client populations (i.e., addiction, mental health, etc.) and is relevant for services provided in a variety of settings (clinics, shelters, jails, etc.).

GOAL:

Participants will gain comprehensive knowledge regarding the process of detoxification and substance abuse treatment to include and understanding of the effects of drugs on the brain, body, and overall health.

OBJECTIVES:

1. Participants will learn about and be able to describe the process of detoxification, including an understanding of assessment, treatment settings, and levels of care.
2. Participants will recognize, understand, and describe the effects of drugs on the brain, body, and overall health.
3. Participants will recognize, understand, and describe the specific detoxification services for withdrawal from specific substances.
4. Participants will recognize, understand, and describe the treatment of co-occurring medical and psychological conditions.
5. Participants will recognize, understand, and describe the financial and organizational issues for detoxification programs.

COURSE OUTLINE

- I. Introduction Materials Tech Support, How it works, About the Author, Welcome, Disclaimers
- II. Pre-test
- III. Overview, Essential Concepts, and Definitions in Detoxification
 - a. Purpose
 - b. Audience
 - c. Scope

- d. History of Detox Services
- e. Definitions
- IV. Settings, Levels of Care, and Patient Placement
 - a. Role of Various Settings in the Delivery of Services
 - b. Other Concerns Regarding Levels of Care and Placement
- V. An Overview of Psychosocial and Biomedical Issues During Detoxification
- VI. Physical Detoxification Services for Withdrawal From Specific Substances
 - a. Psychosocial and Biomedical Screening and Assessment This section covers more complex psychosocial and biomed
 - b. Alcohol Intoxication and Withdrawal
 - c. Opioids
 - d. Benzodiazepines and Other Sedative-Hypnotics
 - e. Stimulants
 - f. Inhalants/solvents
 - g. Nicotine
 - h. Marijuana and Other Drugs Containing THC
 - i. Anabolic Steroids
 - j. Club Drugs
 - k. Management of Polydrug Abuse: an Integrated Approach
 - l. Alternative Approaches
 - m. Considerations for Specific Populations

VII. An Overview of Psychosocial and Biomedical Issues During Detoxification

- a. General Principles of Care for Patients with Co-Occurring Medical Conditions
- b. Treatment of Co-Occurring Psychiatric Conditions
- c. Standards of care for co-Occurring Psychiatric Conditions

VIII. Financing and Organizational Issues

- a. Preparing and Developing a Program
- b. Working in Today's Managed Care Environment
- c. Preparing for the Future

IX. Appendixes

- a. Bibliography
- b. Common Drug Intoxication Signs and Withdrawal Symptoms
- c. Screening and Assessment Instruments
- d. Resource Panel
- e. Field Reviewers

X. Drug Use Facts (addictive qualities, treatment options, effects on the body, etc.)

- a. Cigarettes and Other Tobacco Products
- b. Alcohol
- c. Marijuana
- d. Marijuana Concentrates
- e. Cocaine

- f. Prescription Opioids
- g. Heroin
- h. Fentanyl
- i. Hallucinogens
- j. MDMA (Ecstasy)
- k. Methamphetamine
- l. Synthetic Cathinones

XI. Post Test

XII. Course Evaluation/Survey
